

FIREBOX T10, T30, T50

Available in wired and wireless versions
Up to 1.2 Gbps firewall throughput, 7 x 1Gb ports, 50 Branch Office VPNs, 50 Mobile VPNs

BIG SECURITY FOR SMALL BUSINESSES

Perfect as a stand-alone solution for a small or home office, Firebox® T10, T30, and T50 appliances are also ideal for larger organizations that want to extend easy-to-use, full Unified Threat Management (UTM) protection for remote workers or smaller sites. With more features than any other UTM firewall in its market, these appliances are small, cost-effective security powerhouses that deliver nearly every feature present in WatchGuard's higher end UTM appliances, including all security capabilities such as ransomware protection and data loss prevention.

“ By standardizing on WatchGuard for network security, we were able to decrease the average installation time by more than 75 percent - now averaging anywhere from 15-20 [minutes] per site. We just plug the appliance in, it establishes a connection and pulls the configuration file. We are then up and running, and free to focus our time on testing credit card processing and access to approved web sites. ”

~ Dustin McCreight, Product Manager, Network and Security Services, NCR Corporation

TOTAL NETWORK PROTECTION

Small businesses and remote locations have long been thought of as soft targets for attackers. WatchGuard Firebox T10, T30 and T50 tabletop appliances bring enterprise-level network security to those small office/branch office and small retail environments that matches the reality of today's distributed work style. Our unique product architecture enables smaller businesses to leverage best-in-class security services – from URL filtering and intrusion prevention to application control and data loss prevention – minus the cost and complexity of managing multiple single-point solutions.

QUICK AND SIMPLE DEPLOYMENT

Cloud-based RapidDeploy technology, a configuration and deployment tool that comes standard with WatchGuard Firebox appliances, enables IT staff to create and store configuration data in the cloud – public or private – and have a new appliance directly shipped to its destination. Once the device arrives, it can connect to the cloud for a secure download of its configuration settings, saving staff travel time and money. This technology is particularly advantageous for large distributed enterprises where managing a multitude of devices efficiently across multiple locations and geographies is critical.

EASY TO MANAGE AND UNDERSTAND

Firebox T Series appliances are not only easy to initially configure and deploy, they are also designed with an emphasis on centralized management, making ongoing policy and network management simple and straightforward. WatchGuard Dimension, included with purchase, provides a suite of big data visibility and reporting tools that instantly identify and distill key network security threats, issues and trends so you can take immediate preventive or corrective action. Security is complex, running it doesn't have to be.

FEATURES & BENEFITS

- Wireless versions of the T10, T30 and T50 use 802.11a/b/g/n/ac technology for a much more responsive wireless network connection and expanded range for 2.4 GHz or less-crowded 5 GHz band.
- All logging and reporting functions included with purchase, with over 100 dashboards and reports including PCI and HIPAA.
- Up to 7 Gigabit Ethernet ports support high-speed LAN backbone infrastructures & gigabit WAN connections.
- Includes SSL and IPSec VPN for flexibility in remote access with support for Apple iOS devices such as the iPhone, iPad, and iPod touch.
- T30 and T50 models include a PoE port to power a peripheral device such as a WatchGuard Secure Wi-Fi Access Point, allowing administrators to extend the reach of their networks without having to run costly AC power to the remote device.

Firebox T Series	T10/10-W	T30/30-W	T50/50-W
THROUGHPUT			
Firewall throughput	400 Mbps	620 Mbps	1.2 Gbps
VPN throughput	100 Mbps	150 Mbps	270 Mbps
AV throughput	120 Mbps	180 Mbps	235 Mbps
IPS throughput	160 Mbps	240 Mbps	410 Mbps
UTM throughput	90 Mbps	135 Mbps	165 Mbps
Interfaces 10/100/1000	3 copper*	5 copper	7 copper
I/O interfaces	1 SRL/1 USB	1 SRL/2 USB	1 SRL/2 USB
Power over Ethernet (PoE)	n/a	1 port	1 port
Concurrent connections	50,000	200,000	300,000
New connections per second	2,300	3,400	4,600
Wireless	802.11a/b/g/n	802.11a/b/g/n/ac	802.11a/b/g/n/ac
VLANs	10	50	75
Authenticated users limit	200	500	500
VPN TUNNELS			
Branch Office VPN	5	40	50
Mobile VPN IPSec & SSL/L2TP	5	25	50

SECURITY FEATURES

Firewall	Stateful packet inspection, deep packet inspection, proxy firewall
Application proxies	HTTP, HTTPS, SMTP, FTP, DNS, TCP, POP3
Threat protection	DoS attacks, fragmented packets, blended threats and more
VoIP	H.323, SIP, call setup and session security
Filtering options	Browser Safe Search, YouTube for Schools, Google for Business
Security subscriptions	APT Blocker, IPS, Gateway AV, WebBlocker, App Control, Data Loss Prevention, Reputation Enabled Defense, Mobile Security, Network Discovery, spamBlocker, Threat Detection & Response

VPN & AUTHENTICATION

Encryption	DES, 3DES, AES 128-, 192-, 256-bit
IPSec	SHA-2, IKE pre-shared key, 3rd party cert
Single sign-on	Windows, Mac OS X, mobile operating systems, RADIUS
Authentication	RADIUS, LDAP, Windows Active Directory, VASCO, RSA SecurID, internal database, Duo, SMS Passcode

MANAGEMENT

Logging and notifications	WatchGuard, Syslog, SNMP v2/v3
User interfaces	Centralized console (WSM), Web UI, scriptable CLI
Reporting	WatchGuard Dimension includes over 100 pre-defined reports, executive summary and visibility tools

CERTIFICATIONS

Security	ICSA Firewall, ICSA IPSec VPN
Safety	NRTL/C, CB
Network	IPv6 Ready Gold (routing)
Hazardous substance control	WEEE, RoHS, REACH

NETWORKING

Routing**	Dynamic (BGP4, OSPF, RIP v1/v2), Policy-based VPN
High Availability	Active/passive available on T30 and T50 models
QoS	8 priority queues, DiffServ, modified strict queuing
IP address assignment	Static, DHCP (server, client, relay), PPPoE, DynDNS
NAT	Static, dynamic, 1:1, IPSec traversal, policy-based / Virtual IP for server load balancing**
Link aggregation**	802.3ad dynamic, static, active/backup
Other features	Static routing, port Independence, transparent/drop-in mode/Multi-WAN failover and load balancing**, server load balancing**

PHYSICAL AND POWER SPECIFICATIONS

Product Dimensions

T10/10-W	7.5" x 6.0" x 1.25" (19 x 15.2 x 3.2 cm)
T30/T30-W • T50/T50-W	9.3" x 6.8" x 1.4" (23.7 x 17.3 x 3.6 cm)

Shipping Dimensions

T10/10-W	12.5" x 7.25" x 2" (32 x 18.4 x 5 cm)
T30/T30-W • T50/T50-W	10.5" x 8.5" x 4" (26.7 x 22 x 10.2 cm)

Shipping Weight

T10/T10-W	3.1 lbs (1.4 Kg)
T30/T30-W • T50/T50-W	3.3 lbs (1.5 Kg) (North America)
T30/T30-W • T50/T50-W	4.4 lbs (2 Kg) (Rest of World)

AC Power

AC Power	100-240 VAC Autosensing
Power Consumption	U.S. 15 Watts (51 BTU/hr) (max)
Power over Ethernet	802.3at (PoE+) - 25W
Rack Mountable	No

ENVIRONMENT

	OPERATING	STORAGE
Temperature	32° F to 104° F 0° C to 40° C	-40° F to 158° F -40° C to 70° C
Relative Humidity	10% to 85% non-condensing	10% to 95% non-condensing
Altitude	0 to 9,843 ft at 95° F (3,000 m at 35° C)	0 to 15,000 ft at 95° F (4,570 m at 35° C)
MTBF	129,955 hours at 104° F (40° C)	129,955 hours at 104° F (40° C)

STRONG SECURITY AT EVERY LAYER

Uniquely architected to be the industry's smartest, fastest, and most effective network security products, WatchGuard solutions deliver in-depth defenses against advanced malware, ransomware, botnets, trojans, viruses, drive-by downloads, data loss, phishing and much more.

MULTIPLE PURCHASE OPTIONS

The flexibility of WatchGuard's integrated platform makes it easy to have exactly the security components your business network requires. Whether you choose to start with the security basics or deploy a comprehensive arsenal of network defenses, we have bundled security services to match your requirements.

EXPERT GUIDANCE AND SUPPORT

An initial Support subscription comes with every Firebox T Series appliance. Standard Support, which is included in the Basic Security Suite, provides hardware warranty with advance hardware replacement, 24 x 7 technical support, and software updates. An upgrade to Gold level support is included in WatchGuard's Total Security Suite.

Throughput rates are determined using multiple flows through multiple ports and will vary depending on environment and configuration. Contact your WatchGuard reseller or call WatchGuard directly (1.800.734.9905) for help determining the right model for your network. You can also refer to the Appliance Sizing Guide at www.watchguard.com/sizing.

*Firebox T10-D (DSL) is available in Europe & Australia. Supports ADSL2+VDSL2/ADSL on WAN port with integrated modem.
